Chief@Suffieldems.org

Dates: March 20 - March 24, 2024

Developing and Managing the EMS Field Training and Evaluation Program

March 20th – March 21st

Basic EMS Field Training Officer Course

March 22nd – March 24th

EMS-FTEP™ presents a structured program for transitioning new providers into the EMS agency. It is designed and constructed to provide both the provider and the agency with the greatest possible chance of success, by providing a framework that assures providers understand, develop, and can demonstrate those skills and behaviors that the agency considers essential. It also contributes to the ability of the EMS agency to withstand legal and administrative challenges to employment decisions, and to protect the EMS agency from liability based on claims of negligent hiring, negligent retention, negligent entrustment, and failure to train.

Cost: Early Bird Registration for the Full 5-Days is now open at a discounted rate of \$600 for the full session.

After January 12th you may register individually for the:

- 2 Day Management Course \$275 and/or
- 3 Day FTO Course \$375

The cost includes a light continental breakfast and lunch.

Both classes are to be held at Suffield Volunteer Ambulance Association:
205 Bridge Street Suffield, CT 06078.
